RESEARCH

RESEARCH PROJECTS AND OUTCOMES – (2000 onwards)

Ongoing projects

- 2019 – ongoing **Body Enhancements**
The Pursuit of Excellence. Biotechnologies, enhancement and body capital in Portugal (EXCEL). Olivia Bina is a member and WP Coordinator (Biohacking and Possible Futures), <https://www.excelproject.eu>
- 2016 – ongoing **Age of Humans and Nature**
The Age of Humans and Nature (AoHN) project builds on different strands arising from my original project for ICS 'Crises in Progress', URBACHINA, FLAGSHIP and INTREPID. Focusing on connectedness, it explores the proposition that the way humans understand, value and relate to nature, including how nature contribute to human wellbeing, helps us frame the Anthropocene, its essence as problem, and the range of solutions we might seek - in a more pluralistic way all round. I propose to explore this nexus in urban contexts, as exemplary manifestation of the Anthropocene, epitome of the modern human condition, but also as the locus of great transformative potential through the shaping urban futures. The overall aim of the project is to rethink and challenge the realm of transformation pathways via a renewal of Human-Nature Connectedness (HNC), including the Self-nature dimension, the non-material (sometimes labelled as 'cultural') benefits of HNC, and its contribution to wellbeing.
- 2015 – ongoing **Interdisciplinarity, transforming knowledge, and urban studies**
European Commission H2020 COST transdomain (INTREPID), on: *Interdisciplinarity in research programming and funding cycles*. http://www.cost.eu/COST_Actions/TDP/Actions/TD1408
Budget: 550,000; Olivia Bina is **Action Chair**, and principal investigator for ICS. INTREPID Network: 32 partner countries. Web page: <http://www.intrepid-cost.eu/>

Completed projects

- 2014 **Urban Futures | Squaring Circles, urban sustainability and foresight**
This is a project designed to combine insights from URBACHINA and FLAGSHIP, with the aim to explore normative visions of sustainable urban futures. Funding sources include: European Commission FP7 Projects and the Fundação Calouste Gulbenkian. <http://www.ufsc2050.ics.ul.pt/>
ICS budget: 240,000 euro; ICS Team: Olivia Bina (principal investigator), Luis Balula. Collaborators: Pedro Campos Costa Architects (Lisbon), Andrea Ricci (ISIS, Rome).
- 2010 – 2015 **Crises, progress, growth and limits, human-nature relationships, and sustainability**
ICS-UL Project: '*Crises in progress*'
This project is funded through my contract as Research Fellow at the Instituto de de Ciências Sociais da Universidade de Lisboa (ICS-UL). The research is interdisciplinary and is designed to explore the closely interrelated concepts and theories around ideas of crises, progress, growth and limits, human-nature relationships, and sustainability – as they relate to, and contribute to explain, the financial and economic crises triggered in 2007-8.
- 2013 – 2015 **EU Grand Societal Challenges (GSCs), foresight**

European Commission FP7 Project: 'Forward Looking Analysis of Grand Societal Challenges and Innovative Policies' (FLAGSHIP). <http://flagship-project.eu/>

ICS budget: 110,688 euro; ICS Team: Olivia Bina (principal investigator), João Ferrão, Simone Tulumello, Sandra Mateus, Lavinia Pereira, Anna Caffa. Research Consortium: 16 partners.

2011 – 2015

China and the EU, urbanisation, sustainability

European Commission FP7 Project: 'Sustainable Urbanisation in China: Historical and Comparative Perspectives, Mega-trends towards 2050' (URBACHINA). <http://www.urbachina.eu/index.php/en/>

ICS budget 240,000 euro; ICS Team: Olivia Bina (Work Package 4 Leader, PI and coordinator for ICS), Chinese Partner: Renmin University, Beijing. Research Consortium: 11 partners.

2012 – 2014

Portugal: values, attitudes, economic policy priorities

FFMS Project: 'Values and Attitudes in relation to a shift towards more sustainable economic development: the views of business, state and the people'. Web Site <http://ffms.pt/estudo/683/economia-do-futuro>.

ICS Team: Olivia Bina (collaborator), João Ferrão (principal investigator).

2011 – 2012

Portugal and the EU: cohesion policy, urban-rural governance

PT Conselho Económico e Social - Project: 'Functional Regions, Urban-Rural Relationship and COHESION Policy post-2013'.

2007 – 2009

China and the EU: environmental policy integration, assessment, climate change

European Commission Asia PRO-ECO Project: 'Policy Instruments for Chinese Sustainable Future: Environmental Policy Integration and Strategic Environmental Assessment for the Energy and Transport Sectors'. Web site: <http://www.sea-info.net/content/template1.asp?pid=223>

Role: Lead Scientist (on behalf of Stockholm Environment Institute)

2005 – 2008

China and the EU: environmental governance, assessment mechanisms

Fundação para a Ciências e Tecnologia - Post-doc Project: 'Conceptions of sustainability and environmental governance mechanisms: The case of China and lessons from Europe's perspective'.

2004 – 2005

Assessment, scenarios, biodiversity and EU agriculture policy

European Commission FP5 Project: BIOSCENE, 'Scenarios for reconciling the conservation of biodiversity with declining agricultural use in the mountains of Europe'

Web Site: http://cordis.europa.eu/search/index.cfm?fuseaction=proj.document&PJ_RCN=6060701

2003 – 2004

Environmental Policy and Assessment

UK Economic and Social Research Council Project: 'Define a new research agenda for the social sciences in the field of assessment (environmental, economic and social)' (Joint grant holder)

2000-2004

Environmental Policy and Assessment:

University of Cambridge Scholarship - Doctoral research project: 'Re-conceptualising Strategic Environmental Assessment: theoretical overview and case study from Chile', University of Cambridge (United Kingdom), funded by the University of Cambridge, with fieldwork funded by Antafagasta Scholarships, Cambridge.
